# Fire Safety Training

---

Fire safety training for all employees

# Why Choose IPS Fire & Security for your fire safety training

At IPS Fire & Security, we have over two decades of experience in helping businesses across all sectors conform to the Regulatory Reform (Fire Safety) Order 2005. You can depend on our team to deliver insightful and helpful fire safety training to help safeguard your staff across our three courses.

## Fire Warden Training

Our training for designated fire wardens includes:

- 1. A comprehensive understanding of fire safety law:** the meaning of general fire precautions and fire risk assessment
- 2. The chemistry of fire:** the fire triangle, Pyrolysis, methods of fire spread, describing fire
- 3. Fire prevention measures:** the different sources of ignition, fire safety at home
- 4. Fire fighting equipment:** fire extinguishers classes and their use, fire detection and alarms, emergency lighting, fire safety signage, and types of fire doors
- 5. Fire evacuation procedures:** human behaviour, action in the event of a fire, and a fire warden's role
- 6. Training summary:** including question and answer session
- 7. Outdoor demonstration:** practical fire extinguisher use/demonstration

### Overview
